Re: Revision of the Commission's Rules to Ensure Compatibility with  
Enhanced 911 Emergency Calling Systems, CC Docket No. 94-102

Dear Ms. Dortch:

Michael Amarosa, Philip Verveer, and I, on behalf of TruePosition, Inc., met yesterday with Jim Schlichting, Blaise Scinto, Dan Grosh, Patrick Forster, Jennifer Salhus, and Jennifer Tomchin of the Wireless Telecommunications Bureau. We discussed the success of TruePosition's network-based E911 solution for GSM carriers and its recent testing with Cingular Wireless in Wilmington, Delaware. We explained that in cooperation with Cingular we were able to achieve location accuracy much greater than the Commission's E911 requirements for network-based technologies.

In accordance with the Commission's rules, I am submitting two copies of this letter.

Sincerely,

David M. Don
